Which now looks like the organization fundamentalist plus important of Africa Western.

Too in Africa, we passed to check the situation in Mali, where the instability politics It seems to be a constant. That, added to the active presence of al-Qaeda and Daesh units, they make the challenge for security colossal. Hence, before the overflow of local capacities, and of borders, has necessitated the participation of foreign contingents, in the understood from that the trouble is from character transnational. How good it would be to have a family member or close friend, who was a doctor, nurse or paramedic, to the that we could go in first instance, before any urgency. Yes, no have that friend or family member, maybe we should seek a bond with someone who has those professions, thinking about a future crisis. Facing the reality that we have had to live, the most sensible is to associate with a group of people who increase our chances of survive. You have to form a group where everyone contribute your unique skills for the common good. For example, together you can buy a piece of land or farm and adapt it according to his understanding, to welcome them together with their families, thinking about facing the challenges of the future. I believe that a basic *dream team* would be made up of a doctor, an (armed) soldier, a teacher, an engineer agronomist, Y a bacteriologist, counting each which with tools, and supplies.

# Nigeria: the new death from Abubakar Shekau

Guadi Calvo (Argentina)

To the center, abubakar Shekau, Leader from Boko haraam, presumably dead Recently,

What happens each so much, explode rumors on death of emir from the band terrorist Boko haraam, abubakar Shekau, that directs the organization from 2009, making it one of the deadliest and most active in the world, arriving from the Forest from Sambisa in the state of Borno, in northern Nigeria, to operate with frequency in various countries from Africa Western What Chad, Cameroon and particularly Niger, where a important khatiba (brigade) stars constants attacks against the civilian population and stalls military.

The general from brigade Muhammad Yerima, spokesman of Nigerian Army, reported that the force this studying the reports about from the death from Shekau, which since May 19, has been reiterate in different agencies informative. Depending on the versions, the emir there would be dead in a confrontation with a group from

mujahideen, belonging to the Jama'at Ahl al-Sunnah Wal Jihad Lil dawa (Condition Islamic from the Province from Africa Western or ISWAP), near the forest from Sambisa. The ISWAP, is a training split off from Boko Haram in 2016, led by Abu al Barnawi, son from his founder, Muhammad Yusuf. From then, both organizations they have Dyed frequent shocks, even if the two groups are tributaries of Daesh global.

One from the commanders of ISWAP, Baana Duguri, reported a important confrontation the Wednesday, with the men of Shekau, after to have Following his clue during various days, with gun rigged vans heavy, trying to surround it and capture it alive, until that they got ambush him Y after eliminate a significant number of his escorts, who demanded swear loyalty to the emir from ISWAP, to the-

Barnawi, for it that to the see each other surrounded Shekau, preferred immolate, some versions indicate that detonating a device explosive, while others point out who tried to shoot himself in the chest, threw that there was stepped out for a shoulder causing important wounds. On the other hand a recent information cast to roll for sources military, award the death of Leader terrorist to a army airstrike on fridaypast, in the same sector where I know there would be produced the confrontation with the militiamen from ISWAP. None from the versions has been confirmed.

The operations from ISWAP, for capture to Shekau, I know started to beginning from year, even if They were arrested during Ramadan (April 13 to December 12) May), which would have culminated with success last Wednesday.

The success from that operation concludes, with the long hegemony

of Boko Haram, of more than one decade Y gender plus from 40 thousand dead Y millions from displaced, and install to ISWAP, like the organization most important fundamentalist Africa Western, Y that might mean a relief to the population civilian, since one of the reasons for the 2016 earthquake between both groups was that Shekau, considered as objective so much to civilians What military, having produced infinity of attacks with hundreds of dead, against mosques, markets, villages and railway stations buses, in many cases using as female suicide bombers Y kids even appealing to the kidnappings of students like the happened in 2014, where some 300 girls They were stolen from a school in chibok (born), operation that there was turned to to repeat these latest two years, associated with criminal gangs common, while al-Barnawi, poses Actions only against military and force objectives from security.

The possession of strategic Sambisa forest, which has not accomplished the army Nigerian, in years Y now in hands from the ISWAP, you gives access to a important control from territories Y populations of Borno and most from the routes that I know direct to the town from Maiduguri, the capital state.

Boko's military degradation Haram, can be awarded to a conjunction from different factors As a result of the intense air and artillery attacks on their camps, like produced on May 16, against a enclave terrorist near to the Dawuri village, in the department from conduga (born), in the that die to the less forty militants, While that a amount without specify turned out seriously wound, in the framework from

the new version of Operation Lafiya Dole, (Well done in tongue hausa) commissioned in 2016, for the army Nigerian, the that just from to be reactivated the last 30 from April, with the Name Operation Hadin Kai (Cooperation too in Hausa). The attack I know produced after reports from intelligence that mentioned that the fundamentalists, were in that location for run coordinated attacks around Maiduguri. Another factor that he has degraded to the group, are the violent reactions from Shekau, with their subordinates, it that produces each time with plus frequent desertions, without forgetting the operations of army of Chad, the that they have caused great casualties to the militiamen who operated to the other side from the border. If finally confirmed the death of the emir of Boko Haram, could cause a shift fighters to the ISWAP, it that either is a benefit for the president 's government

Muhammadu Buhari, and perhaps all it counter already that the militiamen under the orders of emir to the- Barnawi, are better organized, have a discipline much plus strict, they are not under the Pressure from the whims of messianic Shekau and have a higher support of Daesh global.

***A dance of millions of Dollars***

After the death from abubakar Shekau, remain without owner the seven millions from Dollars that the Department from Condition North American offered to who eliminate or could give data concrete that could lead to detention of terrorist, already that Washington, I know he has in a hurry to clarify Thursday night that the militiamen who have participated from the elimination from Shekau, no

qualify for the reward, offered by the global program of counter terrorist rewards destined to Track to the main bosses extremists Y other fugitives, with a "nice" Tweet that warned: "Hello, ISIS guys. To clarify: no, no are eligible for the reward for information about your identity or location. It's not like that What it works the program".

Shekau, appeared in the third rank from rewards offered by the department program from Justice North American, very behind other leaders of al- Qaeda Y the Daesh, What Amir Muhammad Said Abdal-Rahman al-Mawla, the successor of Abu Bakr al-Baghdadi, dead in 2019, for whose head I know offers ten millions from Dollars, to the same that for the from saif to the, a top al-Qaeda boss, to many second in line succession behind of current emir Ayman al-Zawahiri, successor from Osama bin Laden, who represents the prize higher with 25 millions dollars.

While yet no one may confirm irrefutably the fate of Shekau, if the strong of chief of army Nigerian, the lieutenant general Ibrahim Attahiru, along with ten others officers, after the plane crashed in the that they traveled, near of Kaduna airport in the north of country, happened the last day twenty.

General Attahiru had been named in his Market Stall, for the President Buhari, last January in a moment in that they arose versions about from instability in the knob's military, it that might to have hatched in a blow, which prints the accident certain suspicions.

Plus, there from the versions from deaths and accidents, the reality from Nigeria, the country more populated of

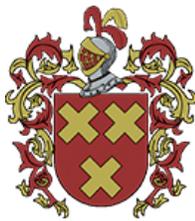

continent with 215 million from from the drug, Y the Stole from from the fishing, from the that population, is What's Next Petroleum, looting its immense historically they have vivid devastated for the poverty, the resources petroleum products by generations. Frame corruption chronicles both its companies Westerners, who have hopeless that gives chance for that political leaders, officials Y polluted immense areas characters What Shekau, can type businessmen, that causes piracy agricultural, now useless for the the fate of the country, beyond on its shores, the increase in crime culture Y polluting so much their what kill one and again. in the south of country, linked to costs maritime Y rivers, provoking posters the end

# Mali, instability as a form of government

Por Guadi Calvo (Argentina)

*One from the quarters from the force multinational saher 5 (G5) that Opera in Mali.*

The last 24 from may, to less than ten months from the previous one, there was a new military coup against President Bah Ndaw, which confirms that in Mali, from 2012, the only constant power is the instability.

From the knock against the President Amadou Toure, in March from 2012, in the country Sahelian, about 20 million from population, I know it lives in a constant condition from oscillation political and military. Since then, a succession from presidents weak they made that the country I know precipitated into a state of debacle constant, in which a new chapter the last 24 from May, which surely will not be the latest.

From does nine years, the country is holding one of the plus virulent war against khatibas from Al Qaeda, to the that little bit plus late, I know added the of Daesh, that from lord it over in the north, has come to control nearly seventy percent of the country. overflowed into Burkina Faso and Niger, forcing Bamako to provide from huge efforts military to contain them, in addition from obligate to France, several nations from the NATO, the Mission Multidimensional integrated from Stabilization from the nations united (MINUSMA) Y to the Group Sahel Five (GS5) composed of troops from Burkina Faso Faso, Chad, Mauritania, Niger, in addition to Mali, to get involved in a conflict, that

each time this plus far from resolve.

The sacrifice from the Forces Armed Forces of Mali (FAMA) that have fought for years against the rigorists in the North, he has been ignored for the politicians from Bamako, so in August 2020, the coup against the President Ibrahim Boubacar Keita popularly known as IBK (See: Mali, plus that a knock military) in power since 2013. The shocked it was headed for a group from military youths, members of the National Committee Salvation of the People (CNSP), directed for the colonel Assimi Goita. After arduous talks and pressure from the United States and France the military of CNSP they accepted then let the

presidency to the now deposed Bah Ndaw Y While that the colonel Goïta, would keep the vice presidency.

After to have reached a agreement politician for to call to elections in February 2022, the CNSP, I know dissolved in January last, for it that the President Bah Ndaw, began to cut the power of Colonel Goïta, removing from his position, via a alleged reform ministerial, to others two influential colonels of CNSP, sound Camera to position of Ministry from Defending Y Modibo Kone in Security, who they would go to to be replaced for the general: Souleymane Doucoure Y mamadou laminate Diallo, that from the knock from August I know they found far away of can.

The Monday, after powerful waves from rumours, it was known that both the President Ndaw Y his First Minister Moctar ouane, together to others tall officials of government, had been arrested and transferred to the base military from Kati, near Bamako and released in the early morning from this Thursday 27, for the pressures from the United States and France, which they get set in cash register to the leaders of the CNSP, who despite from be dissolved, their leaders follow counting with a great support within of army Y to theseem determined to play a new departure with West.

While that some sources point out that the last blow has not counted with the support full of army Y mention tensions internal, so you can't rule out the possibility from clashes Come in different forces from security, what it happened in March from 2012.

For its part, civil society, very active on the streets support to the knock from August, no I know he has mobilized in is chance, even if Yes several organizations

civil, political parties and different personalities, they had required the release from the politicians detained in the base of Katy.

Among the many who still have not been expressed is found the highly influential imam Mahmoud Dicko, who heads the Coordination from movements, associations Y Supporters (CMAS) protagonist from innumerable Y massive acts in Bamako, since before the August coup and during these months.

While internationally the new coup apparently has not Dyed reception Y various countries and international institutions like the Community Economic from state from Africa Western (ECOWAS), the African Union (AU), the MINUS, The Union European (EU). In addition to France States United Y Germany Come in others Occidental countries.

Until now the answer of new government mali, he has been to name to the colonel Assimi Goita interim president, while I know he has announced that the next year I know will perform the elections promised.

### **A conflictive leaf from route**

Again the colonels have left in charge of the country, this time with a can drilled, for the almost ten months that carries governing, without having achieved progress significant in the conflictive roadmap that Yes or yes the country should transit Already the principal organization union he has announced a strike for is week. While the main conglomerate politician Social of country the *Movement du 5 June- Assembly des forces patriotiques or M5-RFP* (Movement of 5 from June- Concentration from Forces Patriotic), from great activism in the days previous to the knock of 2020, filling the streets

from Bamako with their militants, encouraging the protests anti-government, effort that no it was recognized Y the M5-RFP, I was left out of the formation of the government anointed after the knock from August. Facing the new situation of the country the M5-RFP is not yet has spoken, perhaps pending to materialize the rumor that the military will offer to one of their leaders the position from First Minister.

Both Washington and Paris they have proven be in against of new knock demanding to the military, not only the liberation of the President Y their collaborators, question that already he has been result, otherwise too reinstall them in their charges, one point at this time impossible from specify.

The new President, the colonel Assimi Goita, shall concentrate all his attention in the war of north,

which is not only consuming millions from Dollars Y that to weigh from the amount, each time plus important from lives, so much from civilians What from military that I know has claimed the war, the FAME, already have

announced that they are preparing new additions to their ranks. The Minister of

Affairs foreign, French Jean Yves You Drian, already he has warned to the new Council from that Yes the efforts from mediation no have success, France impose sanctions on all those that impede that I know I developed the process from transition, While that the state United, advertisement the suspension from his assistance military, for "to study specific

measures against Who I know they have raised, pressures that until now no they have assortment effect in the military rebels. The attitudes from the governments from Biden Y Macron, no coincide with the let do that is it so having with the new Council from government of Chad, that I take the can and closed the cameras after the death in

combat of President Idriss Deby, in last April (Chad: The storm perfect) throwing a repressive campaign against those who claim the continuity of the constitutional. For the terrorist gangs that operate in the center of the Sahel, arrogant for their progress, even forehead to armies so powerful like those of France and the United States, these breaks in politicians, are annotated. What true military victories, which not only provokes waves from youths, without opportunities, that aspire to become mujahideen, for follow, continue producing instability in all the region, for them the best way from government.

The Pentagon and its partners in the NATO, in recent days they have printed speed from Vertigo to the withdrawal of its troops from Afghanistan, every day, numerous flights loaded from team military Y troops, depart from bagram, the last great base that yet maintains in that country. The "evacuation" to this rhythm would end, between June and July, almost two months before the deadline, the eleven from September, imposed unilaterally for the President joe Biden. Even if in the dispute internal Taliban versus Daesh, Washington prefer, without doubt, that they solve it when their troops I know find out of country. The wear from both organizations Wahhabis in that war is the only chance that the Ghani government and the class politics that I know holds precariously, survive post withdrawal North American.

Reports coming from the most from the fittings military of inside of country are matching: "the ammunition I know deplete, the meal scarce Y many troops are unpaid their salaries from does five months", without a doubt there is little that the constant defections to rhythm from drip, I know convert in alluvial.

# Army Bolivarian increases right away operational

For Douglas Hernandez (Colombia)

*Tanks scorpion C90, part of material recovered.*

This year, the Bolivarian Army of Venezuela implemented a program called "I also have my tank", through which uniformed personnel, public and private companies, and persons from the society civil, to take part in the Recovery from different types from armored that I know totally inoperative, the majority in a state of abandonment in the patios of the units, and others even as "gateguard" or in museums, without engine, and without no system in its interior.

The idea is to show the world and themselves what the Venezuelan people are capable of. when faced with a challenge of these dimensions. The results will be seen in the military parade on June 24 from 2021, when I know comply 200 years from the glorious Battle of Carabobo.

The office from communications strategic of army Bolivarian from Venezuela, that saying be from He passed has improved a lot, is developing a campaign to generate expectation, and at the same time, praising the people, companies or units that have recovered "their" tank. In this way, they have been posting on social networks, short videos or photographic series, which show the recovery process of multitude of vehicles, most of them of Western origin, and which constituted the "Hurricane Armored" of Venezuela, before from the acquisition of material Russian.

It was not public knowledge that so many armored vehicles were out of service, because in fact the armored battalions that framed them continued to operate, and others had been created to receive the vehicles of Russian origin. Presumably they were operating with a diminished workforce, or that they had been reinforced with material of Russian origin. In any case, the repowering process has been shown successful, and hundreds of vehicles will be operational again, it is worth noting that not all of them are "tanks", being This is a generic name placed on the campaign with the intention of standardizing it, but which applies to everybody The types of armored

According to what can be seen in the publications of the Bolivarian Army of Venezuela, the vehicles have gone through a process of general cleaning, bodywork and painting, motorization, recovery of the tracks, or placement from new tires, revision from everything the system electric, conditioning from periscopes look, and

relocation of weapons. It is unknown if there is a guide to guide the process in a standardized way, or if each one makes his best effort, according to his knowledge and understanding. It is my impression that what happened was the second, because not only are aesthetic differences and variations observed, but also submitted new prototypes from resulting material very interesting.

Between the prototypes from new versions from armored, I know stand out vehicles ambulance tactic, drone-carrying vehicles, and especially, various versions of anti-mine vehicles, based on at least three different types of armor, one of them designed from the chassis of the old LAR-160 system, another based at chassis of V-100, and a third prototype based in the transport AMX-13 IVC.

In the videos and photographs available, it can be seen that AMX-30 tanks have been repowered, Scorpion, AMX-13C90, Transports, Command Posts and Mortar Carriers based on the AMX-13, Armored Recognition V-100 and TPZ-1, V-150 Command Posts and Mortar Carriers, and even an anti-aircraft vehicle AML S530, with 20mm cannons. Seeing the progress in the recovery process, it was extended to other equipment Y systems, What for example the kitchens from Bell, the trucks M-35, the rifles without recoil from 106mm., and different parts tube artillery.

This process recalls the national achievements of Cuba and Iran, countries that, being subjected to economic blockades and sanctions that imply restrictions on the arms trade, have been seen in the need to develop important logistics for the maintenance of their weapons and equipment. Venezuela has gone ahead to recover its material, before Washington adds another twist to the blockade, which could hinder the acquisition of new armament.

It is therefore planned that the recovered material will parade on June 24 in Campo de Carabobo, and eventually be reassigned to the different units of army Bolivarian. strengthening their operational capabilities Y power of fire.
